<tr>
<td>Student is diagnosed with COVID-19 or is presumed positive</td>
<td>Student has symptoms, or was in close contact with someone who tested positive for COVID-19 or presumed positive (Primary)</td>
<td>Student has close contact with a Primary Exposure OR with someone who is symptomatic of COVID-19</td>
<td>Student was in close contact with someone who had a Secondary Exposure</td>
</tr>
</tbody>
</table>

## Isolation
- Isolate on campus or place of residence
- Report positive test result to the Student Health Center (SHC)
- Notify Student Affairs (SA) to arrange for help with classes
- Assist with contact tracing by identifying others who have been in close contact with you*
- Remain in Isolation for the time period established by the CDC (at least 10 days and 24 hours with no fever and improved symptoms)
- Seek release to return to campus from SHC

## Quarantine
- Quarantine for a minimum of 14 days on campus or place of residence
- Self-report to SA if close contact or symptomatic for help with classes.
- May be tested at SHC when symptomatic or > 6-days after last close contact

## No Quarantine
- Monitor own symptoms

## Quarantine
- If your primary exposure tests positive, then quarantine and follow Primary Exposure guidance

## Symptoms
- Fever (>100.4 F) or chills
- New loss of taste or smell
- Muscle aches
- Cough or sore throat
- Shortness of breath
- New or unusual headaches
- New gastrointestinal symptoms

## All Students
- Watch for symptoms
- Practice social distancing
- Wear face covering
- Wash hands frequently
- Keep surfaces clean and disinfected

---

*Close contact means someone who was within six feet of an infected person for a cumulative total of 15 minutes or more over a 24-hour period starting from 2 days before illness onset (or for asymptomatic patients, 2 days prior to test specimen collection) until the time the patient is isolated.
