The Bachelor of Science in Health Science allows for a student to gain an education in one of the areas of focus. Students are encouraged to select an area of emphasis that most closely aligns with their professional, academic, and career goals. Health Sciences offers different areas of emphases: Exercise Science, Pre-Physical Therapy, and Pre-Professional. The Health Sciences Degree prepares students for a multitude of career paths. By working with your academic advisor we can help you find the path that is correct path for you. These emphases are able to prepare you to enter physical therapy school, the athletic workforce, or any health type graduate program.

**Available Emphases:**
- Exercise Science
- Pre-Physical Therapy
- Pre-Professional Studies

**Career Opportunities:**
- Exercise Specialists
- Exercise Scientist
- Coach
- Physical Therapist
- Various
