

Dear Applicant:

Enclosed with this letter is an application for admission to The College Program for Students with Autism Spectrum Disorder at Concord University.

Applicants who wish to be considered for the **Fall 2019** semester should return the completed application to me no later than **April 1, 2019**.

Applicants who wish to be considered for the **Spring 2019** semester should return the completed application to me no later than **July 1, 2018**.

*** Admission to The College Program for Students with Autism Spectrum Disorder does not guarantee admission to Concord University, as applications to the university and to the college support program are separate processes.**

An application to The College Program is considered “complete” and will be accepted only if it includes:

- A clinical psychological evaluation (school-based, or psycho-educational evaluations, will not be accepted) dated within three years of this application;
- The results from an intelligence evaluation, such as the WAIS III, accompanied by subtest scores and a detailed, narrative report;
- Results from achievement testing (for example, the Woodcock-Johnson Achievement and the Peabody Individual Achievement tests);
- The most recent IEP, if one is in place for a current student.
- For students who have previous college experience: an *unofficial* transcript from that institution, or other documents that detail classes taken and grades earned.

Each completed application will be reviewed thoroughly by staff to ensure all University and College Program requirements are met. Those applicants who do meet the requirements—and who have documentation that suggests The College Program may be a good fit for their specific needs—may be invited to campus for a face-to-face interview. Based upon that interview and the information gathered from the application process, some prospective students will be invited into The College Program for Students with Autism Spectrum Disorder at Concord University. Formal notification of the decision will be made by mail.

Please call or email if you have questions or need more information.

Sincerely,

Rebecca Hansen, Ed.D.
Program Coordinator
