The **Bachelor of Science in Chemistry** degree can lead to a wide range of career opportunities, including health-related sciences, industry, and teaching. Selection of flexible, advanced coursework in chemistry or other sciences allows our graduates to become multi-disciplinary specialists by completing one or more elective concentrations.

### AVAILABLE CONCENTRATIONS:

Biochemistry (Pre-Medicine)  
 Geochemistry  
 Professional Chemistry

### MILESTONE COURSES

Courses marked as Milestone Courses are crucial for staying on track to complete your degree in four years. Take them in the recommended semester to stay on track! If you see a recommended minimum grade, this is the grade you need to earn to have the best chance for success in this degree! Grades marked with an asterisk are required to pass.

### Helpful Hints

- Use this plan in consultation with your Academic Advisor.
- All Chemistry majors must choose an emphasis: discuss with your advisor. Each concentration is 12-16 hours. See the [catalog](#) for specifics.
- Semester 1—it is recommended that you take the remaining Natural Sciences General Education Course at this point.
- Students who take PHYS 201 & 202 instead of PHYS 101 & 102 may have one 4 hour course within the chosen emphasis waived.

**ADVISING**

When you choose to pursue this degree, you will be assigned an advisor who is an expert in the field of Chemistry. This advisor can help you with course selection, career planning, resume building, and help you with tracking your path to degree completion.

**CAREERS**

Depending on your emphasis, a degree in Chemistry will prepare you for careers such as: Medical Doctor; Chemist; Biochemist; Laboratory Technician; Research Scientist; Drug Research; Pharmacist.

Consult with your advisor to ensure your chosen emphasis is in line with your career goals.

**STUDENT ORGANIZATIONS**

American Chemical Society (student chapter)

PATH (Pre-Med)

**COMPLEMENTARY MINORS**

Chemistry pairs well with many of the minors offered at CU. There are several elective hours in this degree—consult with your advisor to see what minor fits your goals.

*Helpful Hints*

- Some things to consider and discuss with your advisor:
  - Off campus summer experiences
  - Internships after Semester 4 and 6.
  - Research with CU faculty after Semester 4.
  - Taking the GRE (for grad school) after Semester 6.
  - Applying to grad schools December of Semester 7.
