The **Bachelor of Science in Health Sciences—Pre-Physical Therapy** degree prepares students for entry into Physical Therapy School. Students are presented with the classroom knowledge, hands-on skills, and practical experiences to assist them in achieving satisfying careers and making positive contributions to their profession and communities.

**MILESTONE COURSES**

Courses marked as Milestone Courses are crucial for staying on track to complete your degree in four years. Take them in the recommended semester to stay on track! If you see a recommended minimum grade, this is the grade you need to earn to have the best chance for success in this degree! Grades marked with an asterisk are required to pass.

**LANDMARKS**

Points where you see a landmark icon on the four-year plan indicate you have reached a point of action outside regular coursework! See the Helpful Hints for information on each landmark.

Helpful Hints

- Semester 1—Must have a composite ACT score of 18 or above to take BIOL 121. Otherwise, you will take BIOL 101: Biology: Human Body.
- Semester 1 & 2—ACT/SAT scores determine mathematics placement. It is recommended to take MATH 104 (if needed) earlier as it is a prerequisite for PHYS 101/201. **ACT of 25+ or Math SAT of 600+ waives MATH 103 as prerequisite to MATH 104.**
- Semester 4 Landmark—It is recommended that students start reviewing prospective Physical Therapy graduate programs and the admission criteria for those programs.

Helpful Hints

- Semester 5 Landmark—By the end of semester 5 students should have completed 25-50 hours of clinical observation.
- Semesters 5 & 6—Students may take PHYS 201: University Physics I with Calculus and PHYS 202: University Physics II with Calculus instead of PHYS 101 & 102, if desired.
- Between semester 6 & 7: Take the GRE for the first time and being the admissions process to Physical Therapy School.
