12-month Enrollment 2024-25

Institution: Concord University (237330)

User ID: P2373308

Overview

12-month Enrollment Overview

The 12-month Enrollment survey component collects unduplicated student enrollment counts and instructional activity data for an entire 12-month period. Using the instructional activity data reported, a full-time equivalent (FTE) student enrollment at the undergraduate and graduate level is estimated (4-year institutions only). Institutions with Doctor's - professional practice students will also report the FTE enrollment of those students (4-year institutions only). NCES uses the FTE enrollment to produce indicators such as expenses by function per FTE as reported in the IPEDS Data Feedback Report.

Data Reporting Reminder:

- · All institutions must use the July 1 June 30 reporting period.
- Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.

Changes in reporting

The following changes were implemented for the 2024-25 data collection period:

- Added screening question to indicate whether the institution enrolled high school students in college courses for credit during the 12-month reporting period. Note: This screening question originally appeared on the Institutional Characteristics Header component when first added in the 2023–24 data collection. This item was added to the 12-month (E12) component in the 2024–25 data collection to better align the timing of this screening question to the reporting of the enrollment counts. This change was prompted by feedback from the IPEDS Help Desk and IPEDS data reporters that separating the screening question and enrollment count reporting on two different components led to confusion and timing misalignment.
- · Revised the Gender Unknown or Another Gender than Provided Categories screen for clarity.
- Removed mention of "non-first-time" on survey screens and instructions when discussing "transfer-in" student enrollment status to clarify the distinction between these two terms. This change was prompted by feedback from the IPEDS data reporters and data users that IPEDS survey materials conflated the concepts of "transfer-in" and "non-first-time," which led to misunderstanding in interpretation. This change will clearly separate these two concepts in the IPEDS survey materials to improve clarity and understanding of these terms
- Added a new FAQ to better clarify the relationship between "transfer-in" enrollment status on the Fall Enrollment (EF) and 12-month Enrollment (E12) components and the "non-first-time" cohort on the Outcome Measures (OM) component. This change was prompted by feedback from the IPEDS data reporters and data users that the IPEDS survey materials conflated the concepts of "transfer-in" and "non-first-time," which led to misunderstanding in interpretation. This change will clearly separate these two concepts in IPEDS survey materials to improve clarity and understanding of these terms.
- Revised definition for "Transfer-in student" Glossary term to improve clarity. This change was prompted by feedback from the IPEDS data reporters and data users that the current definition for "Transfer-in student" led to misunderstanding in interpretation. This change will clarify this term for greater understanding among the IPEDS audiences.
- Revised definition for "Non-first-time student (undergraduate)" Glossary term to improve clarity. This change was prompted by feedback from the IPEDS data reporters and data
 users that the current definition for "Non-first-time student (undergraduate)" led to misunderstanding in interpretation. This change will clarify this term for greater understanding
 among the IPEDS audiences.
- Revised definition for "Continuing/Returning student (undergraduate)" Glossary term to improve clarity. This change was prompted by feedback from the IPEDS data reporters and data users that the current definition for "Continuing/Returning student (undergraduate)" led to misunderstanding in interpretation. This change will clarify this term for greater understanding among the IPEDS audiences.

12-month Enrollment Screening Questions

- 1. Which instructional activity units will you use to report undergraduate instructional activity?
- Undergraduate instructional activity data in Part B may be reported in units of clock hours or credit hours.
- Please note that any graduate level instructional activity must be reported in credit hours. (4-year institutions only)
 - Clock hours 0
 - Credit hours •
 - Both clock and credit hours (some undergraduate programs measured in clock hours and some measured in credit hours) 0

You may use the box below to provide additional context for the data you have reported above. Context notes will be posted on the College Navigat write all context notes using proper grammar (e.g., complete sentences with punctuation) and common language that can be easily understood by stuacronyms).	

2. Did your institution enroll high school students in college courses for credit during the 12-month Enrollment (E12) reporting period of July 1, 2023 - June 30, 2024?

If you answer Yes to this question, you will be able to report the unduplicated count of high school students enrolled in college courses for credit on Part C of the 12-month Enrollment (E12) survey component.

Yes.

Within a dual enrollment program.

✓ Outside a dual enrollment program.

O No

Note:

Within a dual enrollment program is defined as within an organized system with special guidelines that allows high school students to take college-level courses. The guidelines might have to do with entrance or eligibility requirements, funding, limits on course taking, etc.

Outside a dual enrollment program is defined as high school students who simply enroll in credit courses through your institution, and are treated as regularly enrolled college students.

- The purpose of this supplemental section is to determine whether institutions are able to report the number of students for whom gender is unknown and the number of students for whom gender does not align with the 'Men' and 'Women' categories. Note that these students must still be allocated into the 'Men' and 'Women' categories in all other sections of the survey component.
- Institutions should not ask students that do not select a binary gender to allocate themselves to a binary gender category; it is up to the institution to allocate unknown students and students that indicate another gender into the binary categories throughout the forms where required. One method commonly used by institutions is to allocate these students to the binary categories required in other parts of the form using the proportion of men to women reported.
- The 'gender unknown' category is to report students for whom the institution does not know a gender.

Total of Students for whom gender is known and falls into one of the mutually exclusive binary

Is your institution able to report another gender for the July 1, 2023 - June 30, 2024 reporting period?

Part B - Instructional Activity

12-month Instructional Activity

July 1, 2023 - June 30, 2024

Instructional Activity Reporting Reminder:

- Instructional activity is used to <u>calculate</u> an IPEDS FTE based on the institution's reported calendar system.
- Graduate credit hour activity should not include any doctor's professional practice activity, the total of those students' FTE is entered separately instead.

FTE Reporting Reminder:

• Institutions need not report their own calculations of undergraduate or graduate FTE unless IPEDS FTE <u>calculations</u> would be misleading for comparison purposes among all IPEDS reporting institutions.

Summary

12-Month Enrollment Component Summary

The purpose of this summary is to provide you an opportunity to view some of the data that, when accepted through the IPEDS quality control process, will appear on the College Navigator website and/or your institution's Data Feedback Report (DFR). In addition, all data reported in IPEDS survey components become publicly available through the IPEDS Use the Data and appear as aggregated statistics in various Department of Education reports. College Navigator is updated approximately three months after the data collection period closes and DFRs will be available through the IPEDS Use the Data and sent to your institution's CEO at the end of 2025.

Please review your data for accuracy. If you have questions about the data displayed below or after reviewing the data reported on the survey screens, please contact the IPEDS Help Desk at: 1-877-225-2568 or ipedshelp@rti.org.

Screen Entry	The percentage of dual enrolled students (men + women) whose race and ethnicity are unknown is greater than expected. Please correct your data or explain. (Error #9382)	Explanation	Yes				
Reason	We typically don't collect ethnicity or race data from our dual enrollment students, but this year, it appears more females than males chose not to report their race. It's also possible that the high school didn't provide that information, and the majority of students from that school happened to be female.

Overview

Academic Libraries Overview

Welcome to the IPEDS Academic Libraries (AL) survey component. The purpose of the AL component of IPEDS is to collect information on library collections, library staff, library expenses, and library services for libraries in degree-granting postsecondary institutions.

Data Reporting Reminders

- · Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.
- Report all data for fiscal year (FY) 2024. Fiscal Year 2024 is defined as the most recent 12-month period that ends before October 1, 2024, that corresponds to the institution's fiscal year.

Changes to reporting:

No changes for the 2024-25 data collection period.

Coverage

Include data for the main or central academic library and all branch and independent libraries that were open all or part of the Fiscal Year 2024. Branch and independent libraries are defined as auxiliary library service outlets with quarters separate from the central library that houses the basic collection. The central library administers the branches. Libraries on branch campuses that have separate IPEDS unit identification numbers are reported as separate libraries.

Academic Libraries Component Summary

The purpose of this summary is to provide you an opportunity to view some of the data that, when accepted through the IPEDS quality control process, will appear on the College Navigator website and/or your institution's Data Feedback Report (DFR). In addition, all data reported in IPEDS survey components become publicly available through the IPEDS Use the Data and appear as aggregated statistics in various Department of Education reports. College Navigator is updated approximately three months after the data collection period closes and DFRs will be available through the IPEDS Use the Data and sent to your institution's CEO at the end of 2025.

Please review your data for accuracy. If you have questions about the data displayed below or after reviewing the data reported on the survey screens, please contact the IPEDS Help Desk at: 1-877-225-2568 or ipedshelp@rti.org.

Overview

Admissions Overview

Welcome to the IPEDS Admissions (ADM) survey component. The primary purpose of ADM is to collect basic information about the undergraduate selection process for entering first-time, degree/certificate-seeking students in the fall term. This includes information about admissions considerations, admissions yields, and SAT and ACT test scores (if test scores are used in admissions decisions). The ADM survey component is collected only from institutions that do not have an open admissions policy for entering first-time students, which is captured on the IC survey component.

Data Reporting Reminders:

- Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.
- Institutions that have scores based on the old (2016) SAT score range should convert scores using the College Board concordance tables.
- Institutions operating on a traditional academic year calendar (semester, trimester, quarter, or 4-1-4) report admissions as of the institution's official fall reporting date or October 15. Institutions operating on an "other academic calendar", a calendar that differs by program, or that enrolls students on a continuous basis (referred to as program reporters) report admissions as students who enroll any time during the period of August 1 through October 31.
- ADM is only applicable to <u>first-time students</u>; DO NOT include other students (i.e., <u>transfer-in students</u>) in the number of applicants, number of admits, and number (of admitted) that enrolled. Only include levels (full-time, part-time) that you indicated were offered in the IC Header. If you made an error in the IC Header, please call the IPEDS Help Desk.

Changes to reporting:

- · Revised the Gender Unknown or Another Gender than Provided Categories questions for clarity.
- · Added notes at top of considerations page to clarify reporting.
- · Added clarification of term 'Considered' on the screen and in the instructions.
- · Clarified FAQ #12 related to reporting of legacy status.

Resources:

- · To download the survey materials for this component: Survey Materials
- To access your prior year data submission for this component: Reported Data

If you have questions about completing this survey, please contact the IPEDS Help Desk at 1-877-225-2568.

Admissions Considerations

1. Select the option that best describes how your institution used any of the following data in its undergraduate selection process for the fall 2024 <u>first-time student</u> cohort. The options are:

- Required to be considered for admission (not applicable for legacy status)
- Not required for admission, but considered if submitted
- Not considered for admission, even if submitted

Considered means that an institution includes an item in the package that is reviewed by admissions officers during the review process and the item may factor into a decision for admission.

Admission Considerations	Required to be considered for admission	Not required for admission, but considered if submitted	Not considered for admission, even if submitted
Secondary school GPA	•	0	0

Selection Process - Applicants, Admits, and Enrolled

2. Provide the number of <u>first-time</u>, <u>degree/certificate-seeking</u> undergraduate students who applied, who were admitted, and who enrolled (either full- or part-time) at your institution for Fall 2024. Include <u>early decision</u>, <u>early action</u>, and students who began studies during the summer prior to Fall 2024.

Remember that this question applies only to first-time, degree/certificate-seeking undergraduates. Do not include any other students in these totals. Report admitted students who enrolled in the summer ONLY IF they remained enrolled into the fall.

Only include levels that you indicated were offered in the IC survey component. If you made an error in IC, please remember to fix the error next year.

The 'gender unknown' category will be determined by subtracting (men + women + another gender) from the Total.

Is your institution able to report another gender for the Fall 2024?

If you indicate 'No, my institution is not able to report another gender,' leave the cells in the rows for 'Another gender' blank (i.e., do not report 0). If you indicate 'No, some cells will have a value of less than 5 students,' your institution collects data on another gender, but some cells have a value of less than 5 students, do not report the data and leave the cells in the rows for 'Another gender' blank. If you indicate 'Yes', but no students identified as another gender, please enter '0'.

- O No, some cells will have a value of less than 5 students (do not report)
- Yes

i	acronyms).				

Selection Process - Test Scores

3. Provide data for all students for whom a test score was used in the admissions decision for Fall 2024. Include new students admitted the summer prior to Fall 2024. If you report less than 5 students for any of the scores, do not report percentiles.

Institutions that use test scores for some students report the number of students for whom test scores were used.

Number of enrolled students for whom an <u>SAT</u> score was used in the admissions decision	249
Percent of enrolled students for whom an <u>SAT</u> score was used in the admissions decision	57
Number of enrolled students for whom an ACT score was used in the admissions decision	91
Percent of enrolled students for whom an ACT score was used in the admissions decision	21

Report the scores used in the admission decision, whether test scores are required or are only considered for admission. If you report less than 5 students for any of the scores, do not report percentiles.

Institutions that use test scores for some students report the percentile scores for the students for whom test scores were used.

Overview

Completions Overview

Welcome to the IPEDS Completions survey component. The Completions component is one of several IPEDS components that is conducted during the Fall data collection period. It collects the number of degrees and certificates awarded by field of study, level of award, race/ethnicity, and gender. The reporting period for the Completions component is during the 12-month time period beginning July 1 of the previous calendar year and ending June 30 of the current calendar year; therefore, for this year's Completions component, the reporting period is between July 1, 2023 and June 30, 2024. The Completions component is also collecting the number of students (e.g., completers) who earned awards between July 1, 2023 and June 30, 2024.

Data Reporting Reminder:

Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.

Changes in reporting

The following changes were implemented for the 2024-25 data collection period:

· Added a question on whether institutions had zero students that were conferred an award between July I, 2023 and June 30, 2024.

Use the 2020 CIP codes for this year's data collection.

The CIP 2020 Website includes a list of new CIP codes, a list of deleted CIP codes, a list of moved CIP Codes, and an online crosswalk of the 2010 CIP and 2020 CIP.

Some common Completions component errors include the following:

- Including award levels on your current year Completions that were not reported on your previous year's (PY) Institutional Characteristics (IC). [Award levels in the PY IC component cannot be changed; therefore, contact the IPEDS Help Desk at 1-877-225-2568 if you need assistance.]
- · Forgetting to select CIP codes for new programs of study that are offered by the institution, but do not have completions for the reporting period.
- Forgetting to enter in zero in at least one of the cells for CIP codes that do not have completions.
- Even though Teacher Preparation certificate programs may require a bachelor's degree for admission, they are considered subbaccalaureate undergraduate programs, and students in these programs are undergraduate students.

Keep in mind that some information provided by institutions on the Completions component appear in the <u>College Navigator</u>, which is a major tool used by consumers searching for information about postsecondary education. It is therefore vitally important that you include accurate information about your institution.

Institutions must report the following information. (Some data will be pre-populated from the completions by CIP code data.)

Number of students by gender and race and ethnicity earning an award between July 1, 2023 and June 30, 2024. Count each student only once, regardless of how many awards he/she earned. The intent of this screen is to collect an unduplicated count of total numbers of *completers*.

Gender Unknown or Another Gender than Provided Categories

- The purpose of this supplemental section is to determine whether institutions are able to report the number of students for whom gender is unknown and the number of students for whom gender does not align with the 'Men' and 'Women' categories. Note that these students must still be allocated into the 'Men' and 'Women' categories in all other sections of the survey component.
- Institutions should not ask students that do not select a binary gender to allocate themselves to a binary gender category; it is up to the institution to allocate unknown students and students that indicate another gender into the binary categories throughout the forms where required. One method commonly used by institutions is to allocate these students to the binary categories required in other parts of the form using the proportion of men to women reported.
- The 'gender unknown' category is to report students for whom the institution does not know a gender.

Is your institution able to report another gender for the July 1, 2023 - June 30, 2024 reporting period?

If you indicate 'No, my institution is not able to report another gender,' leave the cells in the rows for 'Another gender' blank (i.e., do not report 0). If you indicate 'No, some cells will have a value of less than 5 students,' your institution collects data on another gender, but some cells have a value of less than 5 students, do not report the data and leave the cells in the rows for 'Another gender' blank. If you indicate 'Yes', but no students identified as another gender, please enter '0'.

IPEDS Completion Component Summary

The purpose of this summary is to provide you an opportunity to view some of the data that, when accepted through the IPEDS quality control process, will appear on the College Navigator website and/or your institution's Data Feedback Report (DFR). In addition, all data reported in IPEDS survey components become publicly available through the IPEDS Use the Data and appear as aggregated statistics in various Department of Education reports. College Navigator is updated approximately three months after the data collection period closes and DFRs will be available through the IPEDS Use the Data and sent to your institution's CEO at the end of 2025.

Please review your data for accuracy. If you have questions about the data displayed below after reviewing the data reported on the survey screens, please contact the IPEDS Help Desk at: 1-877-225-2568 or ipedshelp@rti.org.

Cost I 2024-25

Institution: Concord University (237330)

User ID: P2373308

Overview

Cost Overview

The purpose of the Cost (CST) component is to collect information on student charges for Cost of Attendance estimates and to calculate an Average Net Price (ANP) for first-time, full-time undergraduate students to meet requirements of the Higher Education Act of 1965 (HEA), as amended. This component also collects information on tuition and fees for other groups of students.

Much of the data reported on CST appear on College Navigator, which is updated only one time after CST data have been reviewed by NCES. Therefore, any data reporting errors may stay on College Navigator for a full year.

Additionally, the ANP calculation has important implications for what students see about your institution, and also for the College Affordability and Transparency Center lists.

Data Reporting Reminder:

· Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.

Changes in reporting:

The following changes were made for the 2024-25 collection:

- This is a new survey component that will open in the Fall to allow Cost of Attendance (COA) data to be updated on College Navigator. The component will reopen in the Winter to collect selected information on financial aid awards to calculate an institutional Average Net Price (ANP), at which time COA data elements can be updated or corrected.
- Added questions to determine and make publicly available the information on whether postsecondary institutions ask for other financial information not on the FAFSA form and whether they collect asset data even when students qualify for having their assets exempted from the federal need analysis as this information required by the FAFSA Simplification Act.

Resources:

- To download the survey materials for this component: Survey Materials
- To access your prior year data submission for this component: Reported Data

Screening Questions 1. Does your institution offer institutionally-controlled housing (on-campus and/or off-campus)? If you answer Yes to this question, you will be expected to specify a housing capacity, and to report a housing charge or a combined food and housing charge. O No Yes Specify housing capacity for academic year 2024-25 886 2. Are all full-time, first-time degree/certificate-seeking students required to live on campus or in institutionally controlled housing? This is only a screening question, and your response does not show up on College Navigator. If you answer Yes to this question, you will not be asked to report off-campus food and housing in the cost of attendance. If you make ANY exceptions to this rule, please answer No so that this does not cause conflicts with the average net price calculation. Misreporting may lead to an inaccurate average net price calculation for your institution. No O Yes, and we do not make ANY (even one) exceptions to this rule 3. Does your institution charge different tuition rates for in-district, in-state, or out-of-state students? If you answer Yes to this question, you will be expected to report different tuition amounts for in-district, in-state, and out-of-state students (as applicable). Only select YES if you charge different tuition by students' residence status. You should not select YES and then report the same tuition rate 3 times. Yes, please check all tuition rates charged by your institution ☐ In-district ☑ In-state ✓ Out-of-state 4. Do you offer food or meal plans to your students? If you answer Yes to this question, you will be expected to report a food charge or combined food and housing charge (C10). O No O Yes - Enter the number of meals per week for the meal plan with the largest number of meals available (e.g., students charge meals against a meal card) 5. Does your institution charge an application fee? O Yes - select checkboxes for the student level(s) that have an application fee and report the amount of application fee(s) in Section 1 Part A. ☐ Undergraduate programs ☐ Graduate programs (not including Doctor's-Professional practice) 6. For institutions that charge an application fee, can the application fee be waived for applicants that demonstrate financial need? 0 Yes (please indicate for which level(s) application fee can be waived) 0 ☐ Undergraduate programs ☐ Graduate programs (not including Doctor's-Professional practice) 7. Indicate whether or not your institution participates in a Promise program. O No Yes 8. Indicate whether or not any of the following alternative tuition plans are offered by your institution. 0 Yes [Check all that apply] ☐ <u>Tuition guarantee</u> ☐ Prepaid tuition plan **Tuition payment plan**

Overview

Cost Overview

The purpose of the Cost (CST) component is to collect information on student charges for Cost of Attendance estimates and to calculate an Average Net Price (ANP) for first-time, full-time undergraduate students to meet requirements of the Higher Education Act of 1965 (HEA), as amended. This component also collects information on tuition and fees for other groups of students.

Much of the data reported on CST appear on College Navigator, which is updated only one time after CST data have been reviewed by NCES. Therefore, any data reporting errors may stay on College Navigator for a full year.

Additionally, the ANP calculation has important implications for what students see about your institution, and also for the College Affordability and Transparency Center lists.

Data Reporting Reminder:

· Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.

Changes in reporting:

The following changes were made for the 2024-25 collection:

- This is a new survey component that will open in the Fall to allow Cost of Attendance (COA) data to be updated on College Navigator. The component will reopen in the Winter to collect selected information on financial aid awards to calculate an institutional Average Net Price (ANP), at which time COA data elements can be updated or corrected.
- Added questions to determine and make publicly available the information on whether postsecondary institutions ask for other financial information not on the FAFSA form and whether they collect asset data even when students qualify for having their assets exempted from the federal need analysis as this information required by the FAFSA Simplification Act.

Resources:

- To download the survey materials for this component: Survey Materials
- To access your prior year data submission for this component: Reported Data

If you have questions about completing this survey, please contact the IPEDS Help Desk at 1-877-225-2568.

Screening Questions

Data changed on this page cannot be saved and therefore will not be changed in the Winter Collection Periods.

1. Does your institution offer institutionally-controlled housing (on-campus and/or off-campus)?
If you answer Yes to this question, you will be expected to specify a housing capacity, and to report a housing charge or a combined food and housing charge.

Summary

Cost I Component Summary

The purpose of this summary is to provide you an opportunity to view some of the data that, when accepted through the IPEDS quality control process, will appear on the College Navigator website and/or your institution's Data Feedback Report (DFR). In addition, all data reported in IPEDS survey components become publicly available through the IPEDS Use the Data and appear as aggregated statistics in various Department of Education reports. College Navigator is updated approximately three months after the data collection period closes and DFRs will be available through the IPEDS Use the Data and sent to your institution's CEO at the end of 2025.

Please review your data for accuracy. If you have questions about the data displayed below or after reviewing the data reported on the survey screens, please contact the IPEDS Help Desk at: 1-877-225-2568 or ipedshelp@rti.org.

IPEDS Data Collection System

	This edit and explanation were retained from the prior year (for reference) and do not need to be re-explained in the current year edit report.	
Reason	Per the institutional Financial Aid Office, the total number of students within this income category reduced by half relative to the prior year due to regional economic factors. During 2021-2022, the institution leveraged use of SEOG emergency grants with permitted waived awarding rules.

Overview

Fall Enrollment Overview

The Fall Enrollment component collects student enrollment counts by level of student, enrollment status, gender and race/ethnicity. In addition, first-time students' fall-to-fall retention rates and the student-to-faculty ratio are collected. Enrollment by age is required in odd-numbered years, and enrollment by residence of first-time undergraduates is required in even-numbered years.

Institutions operating on a traditional academic year calendar (semester, trimester, quarter, or 4-1-4) report Fall enrollment as of the institution's official fall reporting date or October 15. Institutions operating on a calendar that differs by program or that enrolls students on a continuous basis (referred to as program reporters) report Fall enrollment as students enrolled any time during the period August 1 and October 31.

Data reporting reminders:

- Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior year reporting.
- · Part B, Enrollment of students by age, is optional this year.
- · Part C, Residence of first-time degree/certificate-seeking undergraduates, is required this year.
- For reporting students studying in consortium agreements, please refer to the Resource page at https://nces.ed.gov/ipeds/report-your-data/data-tip-sheet-reporting-data-consortium-institutions.

Changes in reporting:

The following changes were implemented for the 2024-25 data collection period:

- Added note to Instructions for Part D: Total Undergraduate Entering Class to indicate that high school students enrolled in college courses for credit should not be included in any calculations to determine an institution's entering class. [Applicable to degree-granting institutions only]
- Added a new FAQ to better clarify the relationship between "transfer-in" enrollment status on the Fall Enrollment (EF) and 12-month Enrollment (E12) components and the "non-first-time" cohort on the Outcome Measures (OM) component.
- Revised definition for "Transfer-in student" Glossary term to improve clarity.
- Revised definition for "Non-first-time student (undergraduate)" Glossary term to improve clarity.
- · Revised definition for "Continuing/Returning student (undergraduate)" Glossary term to improve clarity.
- Revised definition for "Entering students (undergraduate)" Glossary term to improve clarity.

Fall Enrollment - CIP CODE Selection

Indicate which of the following fields of study are offered by your institution. In addition to reporting total undergraduate and graduate fall enrollments every year, in even-numbered years you are to report the subset of enrollments that fall within each of the CIP codes listed below.

Fields for which enrollment was reported for Fall 2022 have already been checked; please make sure all listed fields that are offered by your institution are checked.

Note: CIP codes listed below may not reflect all fields of study offered by your institution, therefore the subset of enrollments by CIP codes selected may not sum to your institution's total fall enrollment.

Part A - Fall Enrollment- Gender Unknown or Another Gender than Provided Categories

Reporting Reminders:

- The purpose of this supplemental section is to determine whether institutions are able to report the number of students for whom gender is unknown and the number of students for whom gender does not align with the 'Men' and 'Women' categories. Note that these students must still be allocated into the 'Men' and 'Women' categories in all other sections of the survey component.
- Institutions should not ask students that do not select a binary gender to allocate themselves to a binary gender category; it is up to the institution to allocate unknown students

•	and students that indicate another gender into the binary categories throughout the forms where required students to the binary categories required in other parts of the form using the proportion of men to wome The 'gender unknown' category is to report students for whom the institution does not know a gender.		only used by ins	titutions is to alloca	ite these

Part E - First-time Bachelor's Cohort Retention Rates (Full-time)

Retention Rates - Full-time, First-time Bachelor's Seeking Cohort from Fall 2023

Academic reporters determine the cohort and retention as of the institution's official fall reporting date or as of October 15. Program reporters determine the cohort with enrollment any time between August 1 and October 31, 2023 and retention based on August 1, 2024.

The retention rate is calculated by the system after clicking "Save" on the screen. Exclusions are subtracted from and inclusions are added to the original cohort and the resulting adjusted cohort is used for calculating the retention rate.

Retention Data Reporting Reminders:

- Include only full-time, first-time bachelor's-seeking students in this cohort.
- Determine the full-time cohort using Fall 2023 status (e.g., if a student was full-time in Fall 2023, report them in the full-time cohort regardless of their Fall 2024 status).
- If there are no students to report in the cohort, enter zero. Do not leave the field blank.
- Report in the exclusions box (line E2a) the number of students from the cohort who left the institution for any of the following reasons: died or were totally and permanently disabled; to serve in the armed forces (including those called to active duty); to serve with a foreign aid service of the Federal Government (e.g., Peace Corps); or to serve on official church missions.
- Report in the inclusion box (line E2b) first-time bachelor's-seeking study abroad students who were excluded from the first-time cohort (line E1) but who have re-enrolled at the institution their second year.

Summary

Fall Enrollment Component Summary

The purpose of this summary is to provide you an opportunity to view some of the data that, when accepted through the IPEDS quality control process, will appear on the College Navigator website and/or your institution's Data Feedback Report (DFR). In addition, all data reported in IPEDS survey components become publicly available through the IPEDS Use the Data and appear as aggregated statistics in various Department of Education reports. College Navigator is updated approximately three months after the data collection period closes and DFRs will be available through the IPEDS Use the Data and sent to your institution's CEO at the end of 2025.

Please review your data for accuracy. If you have questions about the data displayed below or after reviewing the data reported on the survey screens, please contact the IPEDS Help Desk at: 1-877-225-2568 or ipedshelp@rti.org.

Overview

Overview

The purpose of the IPEDS Finance component is to collect basic financial information from items associated with the institution's General Purpose Financial Statements.

Data Reporting Reminder:

• Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.

Changes to reporting:

No changes for the 2024-25 data collection period.

Resources:

- To download the survey materials for this component: <u>Survey Materials</u>
- To access your prior year data submission for this component: Reported Data

If you have questions about completing this survey, please contact the IPEDS Help Desk at (877) 225-2568.

Summary

Finance Component Summary

The purpose of this summary is to provide you an opportunity to view some of the data that, when accepted through the IPEDS quality control process, will appear on the College Navigator website and/or your institution's Data Feedback Report (DFR). In addition, all data reported in IPEDS survey components become publicly available through the IPEDS Use the Data and appear as aggregated statistics in various Department of Education reports. College Navigator is updated approximately three months after the data collection period closes and DFRs will be available through the IPEDS Use the Data and sent to your institution's CEO at the end of 2025.

Please review your data for accuracy. If you have questions about the data displayed below or after reviewing the data reported on the survey screens, please contact the IPEDS Help Desk at: 1-877-225-2568 or ipedshelp@rti.org.

Other core expenses include scholarships and fellowships, net of discounts and allowances, and other expenses. Core expenses exclude expenses from auxiliary enterprises (e.g., bookstores, dormitories), hospitals, and independent operations. For institutions reporting in Full parent/child relationships, core expenses per FTE enrollment amounts will not be allocated to child institutions.

	Calculated value	
FTE enrollment	1,768	

The full-time equivalent (FTE) enrollment used in this report is the sum of the institution's FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 12-month Enrollment component). FTE is estimated using 12-month instructional activity (credit and/or clock hours). All doctor's degree students are reported as graduate students.

Overview

IPEDS Student Financial Aid Component Overview

Welcome to the Student Financial Aid (SFA) survey component. The purpose of the SFA component is to collect information about financial aid provided to various groups of undergraduate students and military/veteran educational benefits for all students at your institution.

Data Reporting Reminders:

- · Report data to accurately reflect the period(s) corresponding with the IPEDS survey component requested, even if such reporting seems inconsistent with prior-year reporting.
- · Undergraduate Student Counts

You will be asked to report information for:

- o All undergraduate students
 - Degree/certificate-seeking undergraduate students
 - Full-time, first-time degree/certificate-seeking undergraduate students (FTFT)
 - Non-degree/certificate-seeking undergraduate students
- · Interactive Edits and Error Messages

The SFA survey component contains interactive edits to check for blank fields, invalid values, or values outside expected ranges. Some error messages require you to confirm or explain the values entered whereas other error messages are fatal and require you to contact the IPEDS Help Desk at (877) 225-2568 for resolution.

Context Boxes

You will find optional text boxes throughout the SFA survey component. These text boxes allow you to provide more information or context about the data entered. Some context boxes may be made available to the public on College Navigator, so make sure the information you enter can be understood easily by students, parents, and the public.

Changes to reporting:

The following changes were implemented for the 2024-25 data collection period:

- . Moved the cost of attendance and average net price data items to the new IPEDS Cost (CST) survey component.
- Updated the SFA Survey form and instructions based on legislative changes, U.S. Department of Education guidance, and industry practices.
- Applied the screening question from Section 2 to all institutions.
- · Applied the context box from Section 2 to all institutions.
- Clarified loans to students reported in Section 1, Part C, Line 7 include private education loans.
- Clarified Fall Enrollment (EF) student counts are carried forward and used to calculate average aid amounts and percentages for academic reporters whereas 12-Month Enrollment (E12) student counts are carried forward and used to calculate average aid amount and percentages for program reporters throughout the survey.
- Eliminated the multiple forms that were historically presented on the survey materials page; however, there remain differences in how institutions report. Those differences are indicated in gold text on the single remaining form as presented to OMB. Institutions will not see the gold text and will only see the screens that are applicable to them.

Resources:

- To download the survey materials for this component: Survey Materials
- To access your prior year data submission for this component: Reported Data

If you have questions about completing this survey, please contact the IPEDS Help Desk at 1-877-225-2568.

Section 1 - Student Financial Aid - Undergraduate Students Part A - Establish Your Student Counts

Part A - Establish Your Student Counts

Instructions:

In the fields below, report student counts for the reporting period requested for each student category and financial aid type.

Reporting period loaded based on reporter type: Academic Reporter (AR) OR Program Reporter (PR).

Section 1 is applicable to institutions offering undergraduate programs, as determined by the following items in Institutional Characteristics (IC):

- Q3, award level = 1a, 1b, 2, 3, 4, 5, and 6; or
- Q5, Undergraduate (undergraduate or occupational programs), full-time or part-time = Yes; or
- First-time degree/certificate seeking undergraduate, Full-time or Part-time = Yes.

Reporting Reminders:

- · Part A establishes student counts.
- The numbers on this screen are carried forward to other parts of the Student Financial Aid Survey component and checked for consistency with data reported in other survey components.

Section 1 - Student Financial Aid - Undergraduate Students Part B - UG Student Counts and Financial Aid Award Amounts

Part B - Enter Student Counts and Financial Aid Award Amounts

Instructions:

In the fields below, report student counts and the total financial aid amount awarded for each student category and financial aid type for the reporting period requested. Enter unduplicated student counts within each aid type (e.g., Federal Pell Grants). However, a student can appear in more than one financial aid program group.

Reporting Reminders:

- · Reported values must be consistent with the Information from Part A carried forward to this screen.
- Report students awarded Federal Pell Grant enrolled in post-baccalaureate teacher certification or licensure programs, or courses required by a state to obtain certification to teach the state as undergraduate students.
- Report all other students, including students with intellectual disabilities enrolled in a U.S. Department of Education approved comprehensive transition and postsecondary (CTP) program, at the degree/certificate program level assigned by the institution.
- If students are not admitted and enrolled as degree/certificate seeking taking prerequisites (preparatory courses) offered as part of a Title IV eligible program to satisfy entrance requirements for a Title IV eligible program at your institution or another institution, report them as non-degree/certificate seeking undergraduates.

Summary Data by Student Category and Financial Aid Type

Instructions:

- The SFA Comparison Chart provides a summary of the data reported in Section 1 of the survey. Summary data is based on the preloaded data and information reported on the previous screens in this section for all undergraduate students and full-time, first-time degree/certificate-seeking undergraduate students.
 - Values displayed for All undergraduate students, All degree/certificate seeking undergraduate students, and All non-degree/certificate seeking undergraduate students should match the values reported in Section 1, Part B;
 - Values displayed for Full-time, First-time degree/certificate seeking undergraduate students should match the values reported in Section 1, Part C; and
 - NCES calculated values for the student count and total amount of aid awarded for All other degree/certificate seeking undergraduate students should be the difference between the values reported for All undergraduate students and Full-time, first-time degree/certificate seeking undergraduate students.
- If values displayed do not match your institution's calculations, please correct the numbers reported before moving forward to complete Section 2 of the SFA Survey.
- Data for all degree/certificate seeking undergraduate students and full-time, first-time degree/certificate undergraduate students are published on College Navigator.

Note:

• Data for the 'all other degree/certificate undergraduate' students and all non-degree/certificate undergraduate students will appear in the IPEDS Data Center for data users, but not in College Navigator.

Section 2: Military Servicemembers and Veteran's Benefits - Undergraduate and Graduate Students

Section 2: Military Servicemembers and Veteran's Benefits - Undergraduate and Graduate Students

Instructions:

- Report for Post-9/11 GI Bill Benefits: July 1, 2023 June 30, 2024.
- Report for Department of Defense Tuition Assistance Program: October 1, 2023 September 30, 2024
- Information for ALL programs offered by the institution.

Reporting Reminders:

- Report student counts and total benefit amounts disbursed known to the institution for the U.S. Department of Veteran's Affairs Post-9/11 GI Bill Program.
- · Report student counts and disbursed amounts received and disbursed by the institution for the U.S. Department of Defense Tuition Assistance Program.
- Report unduplicated student counts within a category (e.g., Post-9/11 GI Bill Benefits), however, a student can appear in both categories (i.e., a student can be counted as a Post-9/11 GI Bill Benefits recipient and a Department of Defense Tuition Assistance recipient).
- · Student recipients can also include eligible dependents.
- A student may receive benefits at the undergraduate level and the graduate level during award period.
- · Consult with your campus certifying official, who may not be in the student financial aid office.
- For Post-9/11 GI Bill Benefits, do not include the institutional or state matching share for aid provided through the Yellow Ribbon Program if your school participated.
- Do not leave a cell blank. Enter zero (0) if your institution did not have recipients for the financial assistance program or program level.

Overview

Graduation Rates 200 Overview

Welcome to the IPEDS Graduation Rates 200 (GR200) survey component. The GR200 component is a further extension of the traditional Graduation Rates (GR) component which carries forward 100% and 150% graduation rates data previously reported in the GR component and requests information on any additional completers and exclusions from the cohort between 151% and 200% of normal time for students to complete all requirements of their program of study. This information is collected to assist institutions with complying with the requirements of the Higher Education Act, as amended.

Data Reporting Reminders

- Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.
- The reporting of data for the 200% completion period is not cumulative. Respondents are ONLY asked to report data for the time period between 151% and 200% of normal time to completion.

· When reporting award levels for sub-baccalaureate certificates, determine program length by the number of credit or clock hours.

Changes to reporting:

No changes for the 2024-25 data collection period.

Overview

Graduation Rates Overview

Welcome to the IPEDS Graduation Rates (GR) survey component. The GR component collects data on the cohort of full-time, first-time degree/certificate-seeking undergraduate students and tracks their completion status at 150% of the normal time to complete all requirements of their program of study. This information is collected to assist institutions in complying with the requirements of the Student Right-to-Know Act.

Data Reporting Reminders

- · Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.
- Once a student is in the cohort, they remain in the cohort, even if their status changes to part-time or they drop out or transfer out of the institution. However, adjustments can be made to the cohort for allowable exclusions, which include the death of a student, total and permanent disability, military deployment, or service on an official church mission or with a foreign aid service of the Federal government.

• When reporting award levels for sub-baccalaureate certificates, determine program length by the number of credit or clock hours, NOT the academic year length in parentheses. The academic year length is meant only to provide context.

Changes to reporting for 2024-25:

The following changes were implemented for the 2024-25 data collection period:

• Removed the Gender Unknown or Another Gender than Provided Categories question.

Section I - Establishing cohorts, part 1

Establishing cohorts

Based on your institution's response to the predominant calendar system question (Section 1 - Part B, Question 4) on the Institutional Characteristics survey component from the IPEDS Fall 2024 data collection,

Your institution reported to the GR survey component as having the following number of students who did not complete, but were still enrolled at your institution:

Fall Cohort

A <u>fall cohort</u> is used by institutions with standard academic terms (semester, trimester, quarter, 4-1-4). A <u>full-year cohort</u> is used by institutions offering primarily occupational/vocational programs and operating on a continuous basis.

Reporting Reminder:

- · Report Hispanic/Latino individuals of any race as Hispanic/Latino
- · Report race for non-Hispanic/Latino individuals only

NOTE: Reporting using the new race/ethnicity categories is now mandatory. On this screen you will need to revise your preloaded 2018 cohort of <u>full-time</u>, <u>first-time</u> <u>degree/certificate-seeking</u> <u>undergraduate</u> students to the new race/ethnicity categories (if applicable). For information and assistance with this, please visit the <u>IPEDS Race/Ethnicity Information Center</u>.

Section II - Bachelor's or equivalent degree-seeking subcohort - Transfers/exclusions

- In the columns below, report the status of those students in the <u>BACHELOR'S OR EQUIVALENT DEGREE-SEEKING SUBCOHORT</u> listed in Column 10 who did not complete a program within 150% of <u>normal time to completion</u>.
- Report <u>transfers-out</u> who did not complete a program in Column 30. If the mission of your institution includes providing substantial preparation for students to enroll in another eligible institution WITHOUT having completed a program, you must report transfer-out data in Column 30. A school is required to report only on those students that the school knows have transferred to another eligible institution. A school must document that the student actually transferred. If it is not part of your mission, you may report transfer-out data if you wish.
- Report eligible exclusions from the subcohort in Column 45. The ONLY allowable categories for this column are:
 - Students who died or became totaly and permanently disabled
 - Students who left school to serve in the armed forces (or have been called up to active duty)
 - Students who left school to serve with a foreign aid service of the Federal Government
 - Students who left school to serve on an official church mission
- · Column 52 [No longer enrolled] will be calculated for you. This includes students who have dropped out as well as those who completed in greater than 150% of normal time.
- If you do not have any values to report in either Column 30, 45, or 51, you must enter at least one zero in a field on this screen to continue.

Subcohort of full-time, first-time students seeking a bachelor's or equivalent degree

- · Report Hispanic/Latino individuals of any race as Hispanic/Latino
- · Report race for non-Hispanic/Latino individuals only

For each subcohort, report the number of students in the cohort, total exclusions for the cohort, the number of students that completed a bachelor's or equivalent degree within 150% of normal time to completion, and the total completers within 150%.

- Recipients of a Pell Grant and Recipients of a Direct Subsidized Loan that did not receive a Pell Grant are *mutually exclusive*, that is, if a student is in one cohort, they cannot be in the other cohort.
 - The total of these 2 subcohorts must be less than the Bachelor's or equivalent degree-seeking cohort

Summary

Graduation Rate Component Summary

The purpose of this summary is to provide you an opportunity to view some of the data that, when accepted through the IPEDS quality control process, will appear on the College Navigator website and/or your institution's Data Feedback Report (DFR). In addition, all data reported in IPEDS survey components become publicly available through the IPEDS Use the Data and appear as aggregated statistics in various Department of Education reports. College Navigator is updated approximately three months after the data collection period closes and DFRs will be available through the IPEDS Use the Data and sent to your institution's CEO at the end of 2025.

Please review your data for accuracy. If you have questions about the data displayed below or after reviewing the data reported on the survey screens, please contact the IPEDS Help Desk at: 1-877-225-2568 or ipedshelp@rti.org.

Overview

Human Resources Overview

Welcome to the IPEDS Human Resources (HR) survey component. The HR component collects important information about your institution's staff.

Data Reporting Reminders

- Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.
- Report each employee only once. If an employee could be coded in more than one occupation, code the employee in the occupation that requires the highest level of skill OR if there is no measurable difference in skill requirements, code the employee in the occupation in which they spend the most time.
- · Report staff members difficult to categorize in the "Human Resources Survey Evaluation" box at the end of the survey.
- Enter data on each displayed screen. If a screen is not applicable, enter at least one zero in a field on the screen and save before continuing.
- When reporting salary data (applicable to degree-granting institutions only) include all full-time, non-medical school, instructional staff both with and without faculty status.

See the instructions for the Key Reporting Concepts section - which will have basic reporting concepts that will assist you in completing the Human Resources survey component.

Changes to reporting:

No changes for the 2024-25 data collection period.

Resources:

- To download the survey materials for this component: Survey Materials
- All staff must now be reported using the new IPEDS occupational categories, which align with the 2018 Standard Occupational Classification (SOC) codes. Additional
 information and resources can be found in the IPEDS HR/SOC Information Center, including general information about the SOC, the IPEDS/SOC crosswalk, a SOC Browse Tool,
 Frequently Asked Questions, and Web Tutorials.
- To access your prior year data submission for this component: Reported Data

If you have questions about completing this survey, please contact the IPEDS Help Desk at 1-877-225-2568.

Reporting Reminders:

- The name of the preparer is being collected so that we can follow up with the appropriate person in the event that there are questions concerning the data.
- The Keyholder will be copied on all email correspondence to other preparers.
- The time it took to prepare this component is being collected so that we can continue to improve our estimate of the reporting burden associated with IPEDS.
- Please include in your estimate the time it took for you to review instructions, query and search data sources, complete and review the component, and submit the data through the Data Collection System.
- Thank you for your assistance.

Summary

Human Resources Component Summary

The purpose of this summary is to provide you an opportunity to view some of the data that, when accepted through the IPEDS quality control process, will appear on the College Navigator website and/or your institution's Data Feedback Report (DFR). In addition, all data reported in IPEDS survey components become publicly available through the IPEDS Use the Data and appear as aggregated statistics in various Department of Education reports. College Navigator is updated approximately three months after the data collection period closes and DFRs will be available through the IPEDS Use the Data and sent to your institution's CEO at the end of 2025.

Please review your data for accuracy. If you have questions about the data displayed below or after reviewing the data reported on the survey screens, please contact the IPEDS Help Desk at: 1-877-225-2568 or ipedshelp@rti.org.

Salaries of full-time instructional staff paid less than 9 months per year are not collected. Also, salaries of medical school staff are not collected. The weighted average monthly salaries may be included in the DFR.

Overview

IC Overview

Welcome to the Institutional Characteristics (IC) survey component. This survey component collects directory information, including data that are key to reporting throughout the IPEDS data collection and must be completed and locked before any other survey can be started. Any errors in the IC survey component can lead to further errors in the data reporting process, so please be very careful in reporting these data correctly and contact the IPEDS Help Desk (877.225.2568) if you have any questions.

Institutional Characteristics 2024-25

This survey component also collects basic institutional information including student services and athletic association.

The IC should be completed based on the **current year**. Some IC questions may require nothing more than a confirmation if nothing has changed. Please make changes as necessary, and complete items that do need a response (e.g., enrollment questions).

Remember, it is the responsibility of the keyholder to provide NCES with accurate data about the institution. Please never hesitate to call the IPEDS Help Desk at 1-877-225-2568 and ask for help to make sure that you are reporting correctly!

Because of the importance of the IC data in Section 1 (Header Information) in determining the screens you will receive in other survey components, be sure to report correctly, and to contact the IPEDS Help Desk if you have **ANY** questions about what you need to report.

The IC data in Section 1(Header Information) affect other survey components in the following ways:

- The Educational Offerings question verifies your institution's inclusion in IPEDS.
- The Control and Levels page is key to all survey components, especially to Finance (F) and Graduation Rates (GR). Additionally, this is important information for students, impacts many federal reports, and is used in placing institutions in appropriate net price groupings.
- · Calendar system selection impacts student charges data reported in Cost (CST), Fall Enrollment (EF), GR, and Student Financial Aid (SFA) data.
- · Enrollment levels impact student charges in CST and enrollment categories in the EF survey component.
- The Open Admission question determines whether the Admissions component will be required in the Winter collection.
- The Academic Libraries expenses question determines whether the Academic Libraries component will be required in the Spring collection. This question is asked of degree-granting institutions only.
- The operations question for new institutions determines reporting of 12-month Enrollment (E12).

Data Reporting Reminder:

• Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.

Changes to reporting:

The following changes have been made for 2024-25 collection:

• The IC survey includes elements of the IC Header and the IC survey components. IC no longer includes Cost data; those data are collected in the new Cost survey component.

Resources:

- To download survey materials package for this component: Survey Materials
- To access your prior year data submission for this component: Reported Data

If you have questions about completing the survey, please contact the IPEDS Help Desk at 1-877-225-2568.

Section 1- Header Information: Part B - Organization - Control and Levels

2. What is your institutional control or affiliation?

Be sure to select the correct control for your institution. Errors on this question have an impact throughout the IPEDS surveys, in federal reporting, in net price groupings, and on your institutions' appearance to students. If you reported incorrectly in a previous year, please contact the IPEDS Help Desk at 877.225.2568 to correct the error.

3. What award levels are offered by your institution? [Check all that apply]

Award Levels reported should be completed based on the current year. When reporting award levels for subbaccalaureate certificates (levels 1a, 1b, 2, and 4), determine program length by the number of credit or clock hours.

The "Other" award level should not be used unless your program truly does not fit any of the other award levels. We expect very few institutions to fit the "Other" category.

Even though Teacher Preparation certificate programs may require a bachelor's degree for admission, they are considered subbaccalaureate undergraduate programs. Check the applicable award level 1a, 1b, 2, or 4, depending on the length of the Teacher Preparation program.

Section 1- Header Information: Part B - Organization - Calendar System

Your response to the next question determines how your institution reports Institutional CST student charges data in the fall, Student Financial Aid data in the fall/winter, and Graduation Rates data in the winter.

If the calendar system differs from prior year or requires a change, please contact the IPEDS Help Desk at 877.225.2568.

1 4. What is the predominant <u>calendar system</u> at the institution? [Choose one]

Academic Year Reporting Method (Standard academic terms)

Selecting one of the following calendar types determines that your institution will provide Student Financial Aid and Graduation Rates data based on a <u>FALL COHORT</u>, and student charges data for a full <u>ACADEMIC YEAR</u>.

- Semester
- O Quarter
- O <u>Trimester</u>
- 4-1-4 or similar plan

Program Reporting Method (Other calendar system)

Selecting one of the following calendar types determines that your institution will provide Student Financial Aid and Graduation Rates data based on a <u>FULL-YEAR COHORT</u>, and student charges data by <u>PROGRAM</u>.

- O <u>Differs by program</u>
- Ontinuous basis (every 2 weeks, monthly, or other period)

Hybrid/Mixed Reporting Method (Standard academic terms, other academic calendar)

Selecting the hybrid calendar type determines that your institution will provide Graduation Rates data based on a <u>FULL-YEAR COHORT</u>, student charges data for a full <u>ACADEMIC YEAR</u>, and Student Financial Aid data for students enrolling between August 1 and October 31.

O Hybrid (Other academic calendar)

Section 1- Header Information: Part B - Organization - Student Enrollment

5. Does your institution enroll any of the following types of students?

Include all levels offered by your institution, even if there are no students currently enrolled at that level.

Responses to these questions determine which screens will be generated for reporting academic year tuition charges, and for reporting Fall Enrollment during the Spring collection.

Additionally, checking Yes for full-time, first-time, degree/certificate-seeking undergraduate students determines that your institution must report cost of attendance data (on the Cost I component) and Student Financial Aid data for these students.

	<u>Full-time</u>		<u>Pa</u>	rt-time
<u>Undergraduate (academic or occupational programs)</u>	O No	Yes	O No	Yes
First-time, degree/certificate-seeking undergraduate	O No	Yes	O No	Yes
Graduate (not including doctor's-professional practice)	O No	Yes	O No	Yes

7. For Fall 2018, did your institution have any full-time, first-time degree/certificate-seeking students enrolled in programs at the baccalaureate level or below?

If you answer **Yes** to this question, you will be required to provide Graduation Rates data for the 2018-19 cohort in the winter collection. If you answer **No** to this question, indicate the reason you are not required to report Graduation Rates for the cohort year requested.

If you reported any full-time, first-time degree/certificate-seeking undergraduates on the 2018-19 Enrollment survey, the data will be preloaded below.

Section 1- Header Information: Part B - Multi-institution or Multi-campus Organization

8. Multi-institution or multi-campus organization

Is the institution part of a multi-institution or multi-campus organization that owns, governs, or controls the institution? Do NOT indicate a religious affiliation here; that information is collected separately.

If you need assistance or need to make changes, contact the IPEDS Help Desk at 1-877-225-2568. You will not be able to lock your submission if this question is blank.

- No, this institution IS NOT a part of a multi-institution or multi-campus organization that owns, governs, or controls the institution.
- O Yes, this institution IS a part of a multi-institution or multi-campus organization that owns, governs, or controls the institution.

Outcome Measures 2024-25

Institution: Concord University (237330)

User ID: P2373308

Overview

Outcome Measures Overview

Welcome to the IPEDS Outcome Measures (OM) survey component. The OM component collects award and enrollment data from degree-granting institutions on four undergraduate cohorts and eight undergraduate subcohorts at three status points: four-years, six-years, and eight-years after entry.

The four cohorts of degree/certificate-seeking undergraduates are:

- · First-time, full-time entering (FTFT)
- First-time, part-time entering (FTPT)
- Non-first-time, full-time entering (NFTFT)
- · Non-first-time, part-time entering (NFTPT)

For each cohort, two subcohort groups have been added to the OM component - Pell Grant recipients and Non-Pell Grant recipients - resulting in eight undergraduate subcohorts.

Data Reporting Reminders:

- · Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.
- All institutions must report on a FULL-YEAR cohort. The OM cohort year is 2016-17. The full-year cohort coverage period is July 1, 2016 June 30, 2017.
- Institutions will establish their OM cohorts based on their subcohorts of entering Pell Grant recipients and Non-Pell Grant recipients. Institutions should first identify their entering degree/certificate-seeking undergraduates during the cohort coverage period of July 1, 2016 June 30, 2017, and place each student in the appropriate subcohort. Each student should be reported only once.
- · All institutions are required to report transfer-out student data.
- For each status point, institutions will report the highest type of award conferred to a student for each subcohort. The three award categories are certificates, Associate's degree, and Bachelor's degree.
- Institutions should report exclusions for the entire eight year period only on the "Establishing Cohorts" screen. Additional exclusions cannot be reported on the status point screens (i.e., four-years, six-years, or eight-years after entry).
- IPEDS will ask for an estimated time it took to complete the OM component. Include in that estimate the time to review instructions, research data sources (i.e., coordinate with IT and Student Aid offices), complete and review the component, and submit the data.

Changes to reporting:

The following changes were implemented for the 2024-25 data collection period:

- Revised FAQ about "non-first-time" degree/certificate-seeking undergraduate students.
- Added a new FAQ to better clarify the relationship between "transfer-in" enrollment status on the Fall Enrollment (EF) and 12-month Enrollment (E12) components and the "non-first-time" cohort on the Outcome Measures (OM) component.
- · Added a new example to FAQ about students who change from non-degree/non-certificate-seeking to degree/certificate-seeking at the IPEDS reporting institution.
- · Added additional information to FAQ about resources for tracking subsequent enrollment.
- Revised definition for "Non-first-time student (undergraduate)" Glossary term to improve clarity.

Important Dates to Remember:

All reporting institutions will report on degree/certificate-seeking undergraduates who entered the 2016-17 cohort year: (July 1, 2016-June 30, 2017).

- · Four-year status point was as of August 31, 2020
- · Six-year status point was as of August 31, 2022
- · Eight-year status point was as of August 31, 2024

Reporting Tips

Carefully read each OM FAQ before reporting your institution's data.

Establishing Cohorts

2016-17 Entering Undergraduate Cohort

July 1, 2016-June 30, 2017: Full Year

- Begin by identifying your entering degree/certificate-seeking undergraduates for the full year of July 1, 2016 June 30, 2017.
- Then report each student under one of the eight subcohorts (Pell or Non-Pell Grant recipients FTFT, FTPT, NFTFT).
- · Each entering student should be reported only once.
- The four cohorts and total entering students will be calculated based on your subcohort reporting.

NOTE: Once a student is in the cohort, the student remains in the cohort, even if the student's attendance status changes (i.e., full-time to part-time, or vice versa) or if the student drops out, transfers out, or transfers back into the institution during the eight-year period. However, institutions can make adjustments to the cohort for allowable exclusions, which include the death of a student, total and permanent disability, military deployment, or service on an official church mission or with a foreign aid service of the Federal government. Exclusions are for the ENTIRE eight years for the entering 2016-17 cohort.

Award and Enrollment Status at Eight Years

Award and Enrollment Status at Eight Years After Entry: 2016-17 Entering Undergraduate Cohort

(July 1, 2016-June 30, 2017: Full Year)

- From the adjusted 2016-17 cohort, report the number of students who earned an award at eight years after entry for each subcohort.
- Report the highest award earned for each degree/certificate-seeking student for the eight-year status point (August 31, 2024) even if a student earns multiple awards.
- For students who did not receive an award from your institution, first report the number of students who are still enrolled at your institution, and then report the number of students who had enrolled at another institution over the eight-year period.

Note: Subsequent enrollment should be tracked for the entire period of eight years after entry.
