

COMPUTER SCIENCE

The Bachelor of Science in Computer Science curriculum is designed to give students a thorough understanding of computers; the physics of the hardware; the underlying mathematical principles; and the creation of software solutions. The core prepares students for a wide variety of careers and graduate school, but students can also choose one of three concentrations in which to specialize.

AVAILABLE EMPHASES:

Analysis, Simulation & Modeling
Cybersecurity
Software Development

*This program will also prepare students for
graduate school in Computer Science and
related fields!*

POTENTIAL CAREERS:

Computer Network Architect
Computer Programmer
Information Security Analyst
Software Developer
Software Engineer
